COMMUNITY ANALYTICS JOINS ACCELERANT

Accelerant Welcomes Community Analytics as Newest D.C. Network Partner

BALTIMORE (August 2010) - Two of the area's leaders in innovative thinking have joined in partnership. Community Analytics has joined Accelerant as the organization's newest partner in the Washington D.C. network. Accelerant's unique networking platforms have become well known as powerful vessels for building relationships between businesses. Community Analytics Vice President Marjorie Cota identified Accelerant as an ideal business partner from previous experience working with the organization in its Baltimore Business Network.

"I had a very enjoyable and successful experience with Accelerant while involved in the Baltimore network for two years," said Cota. "Both of our organizations pride ourselves on our innovative strategies and thinking related to identifying decision makers. I think that made it an easy decision for our own decision-makers to link up."

The Washington D.C. network platform that Community Analytics joined is one of 16 Accelerant networks throughout the nation. Organizations that join the Accelerant networks are then matched with other local businesses based exclusively on their business attributes and initiatives.

#####

About Community Analytics:

Community Analytics is a unique organization whose singular aim is to connect organizations to the relationships impacting their bottom line. We understand human networks and the roles they play in the decision making process. We combine science, art and a little bit of magic to harness the power of these networks for the greater good: more revenue for you and more relevance for your customers.

About Accelerant:

Accelerant is a business development platform designed to serve the middle market business community. Every partner company is exclusive to its business category, and Accelerant brings them together in a variety of environments to build new relationships and generate new business.
